ABOUT

I graduated from NSCC IT Programming (Class of 2020). For the last 2 years I've been developing a 2D fantasy platform game named Vex Monsters, where you save monsters from an evil mysterious villain.

Throughout my experience as a programmer, I have completed several challenging projects. These projects taught me a hands-on mindset and approach. I learned how to analyze, study, and apply learning to figure out solutions when working alone or with a team.

SKILLS

Unity, C#, Creative Writing, Project Management, Computer Maintenance, Software Installation, Computer Hardware, Responsive Web Design, Game Development, Object-Oriented Programming (OOP), Video Editing

TOOLS AND TECHNOLOGIES

C++, Python, Java, PHP, HTML, CSS, Windows, GitHub, Laravel, Google Suite, Trello, JavaScript, jQuery, Linux, Microsoft SQL Server, SQL, Microsoft Word, Adobe Photoshop
